

YUSUFALI RAVAT

JR .NET DEVELOPER

yrvat009@gmail.com | [+919714405312](tel:+919714405312) | [LinkedIn](#) | [GitHub](#) | [My Portfolio](#)

SUMMARY

Passionate and results-driven Junior Software Developer with hands-on experience in developing full-stack web applications using .NET Core technologies. Proficient in both frontend and backend technologies with strong problem-solving and teamwork skills. Seeking to contribute to innovative projects in a challenging software development role.

TECHNICAL SKILLS

- **Programming Languages:** C#, JavaScript, SQL
- **Backend Technologies:** .NET Core, ASP.NET MVC, Web API, Entity Framework
- **Frontend Technologies:** ReactJS, AngularJS, jQuery, Bootstrap, HTML5, CSS3
- **Databases:** PostgreSQL, MS SQL Server, MySQL
- **AI & Development:** Generative AI, LLMs, AI Agents, Prompt Engineering, AI-assisted Development
- **Tools & Platforms:** Git, GitHub, Visual Studio, Postman, Shopify, Qikink, Antigravity

PROFESSIONAL EXPERIENCE

Enterprise Analytic LLP (Jan 2023 - June 2024)

- Developed and maintained .NET Core Web API applications with AngularJS frontend, enhancing system scalability.
- Collaborate in a team environment to deliver client-centric solutions for diverse domains, including finance, hospitality, and retail.
- Optimise code for performance and scalability while ensuring adherence to security best practices.
- Implemented bug fixes and performance improvements, decreasing application load times.

Intern – Enterprise Analytic LLP (Jan 2023 – Mar 2023)

- Assisted in developing financial management software using .NET Core, AngularJS, JavaScript, and MS SQL. Supported backend development tasks in ASP.NET MVC and SQL Server.
- Supported backend development tasks in ASP.NET MVC and SQL Server.

PROJECT EXPERIENCE

VaibhavLaxmi (Finance Management Software) (Jr. Web Developer)

- Developed a financial management system to manage loans, interest rates, and installments.
- Built a secure multi-branch loan distribution and collection module, ensuring data integrity.

Responsibilities:

- Developed loan management, installment tracking, and interest calculation modules for the finance management system.
- Built secure multi-branch loan distribution and collection features using .NET Core Web API and MS SQL.
- Designed RESTful APIs and optimized SQL queries for better performance and efficient data handling.
- Created responsive and user-friendly interfaces using AngularJS, Bootstrap, HTML, CSS, and JavaScript.
- Collaborated in Agile development to deliver scalable and reliable business solutions.

Technologies: NET Core Web API, AngularJS, HTML, CSS, JavaScript, Bootstrap, MS SQL

Semicon Referrals (Job Portal) (Jr. Web Developer)

- Created a job portal matching candidates with opportunities, featuring a referral-based rewards system.
- Enhanced user engagement through efficient backend processing and intuitive design.

Responsibilities:

- Developed and maintained core modules for job posting, candidate applications, and referral management.
- Built RESTful APIs using .NET Core Web API for secure and efficient data handling.
- Optimized MS SQL queries to improve portal performance and user experience.
- Created responsive and user-friendly interfaces using AngularJS, Bootstrap, HTML, CSS, and JavaScript.
- Collaborated with the development team in Agile sprints to deliver scalable and reliable features.

Technologies: NET Core Web API, AngularJS, HTML,CSS, JS, Bootstrap, MS SQL

Memoriesnsmiles (Event Management Platform) (Jr. Web Developer)

- Developed a platform for seamless event bookings with integrated photography, catering, and decoration services.
- Improved customization options for event planning through robust API integrations.

Responsibilities:

- Developed and maintained event booking modules for photography, catering, and decoration services.
- Built and integrated RESTful APIs using .NET Core Web API for smooth event management workflows.
- Created responsive and interactive user interfaces using AngularJS, Bootstrap, HTML, CSS, and JavaScript.
- Optimized MS SQL queries and backend processes to improve system performance and reliability.
- Collaborated with development and QA teams in Agile sprints to deliver scalable and user-friendly features.

Technologies: .NET Core Web API, AngularJS, HTML, CSS, JavaScript, Bootstrap, MS SQL

Enterprise Analytic & Turnover Center (Portfolio Websites) (Jr. Web Developer)

- Developed and maintained corporate portfolio websites to showcase company services and business information.
- Designed responsive and user-friendly interfaces using HTML, CSS, JavaScript, Bootstrap, and AngularJS.
- Improved website performance, responsiveness, and overall user experience across devices.
- Collaborated with the team to manage website updates and enhance functionality.

Technologies: .NET Core Web API, AngularJS, HTML, CSS, JavaScript, Bootstrap, MS SQL

PROFESSIONAL DEVELOPMENT & INDEPENDENT PROJECTS (JUNE 2024 – PRESENT)

Motel Booking Platform (Independent Client Project)

- Developed a motel booking platform for managing room reservations, advance bookings, availability, and pricing.
- Built separate user and admin functionalities to streamline the complete booking process.

Responsibilities:

- Developed room booking and advance reservation modules for customers.
- Built an admin panel to manage rooms, bookings, availability, and pricing.
- Implemented dynamic pricing rules to automatically increase room prices during weekends.
- Added festival-based pricing configuration through the admin panel.
- Designed booking workflows to handle room availability and reservation management.
- Developed responsive and user-friendly interfaces for customers and administrators.
- Integrated backend APIs for reliable booking and pricing management.

Technologies: .NET Core Web API, AngularJS/ReactJS, HTML, CSS, JavaScript, Bootstrap, MS SQL

Shopify E-commerce Store (Self-Learning & Personal Project)

- Built and managed a clothing e-commerce store using Shopify to gain practical experience in online store development and e-commerce operations.
- Implemented a dropshipping workflow using Qikink for product fulfillment.

Responsibilities:

- Set up and customized the Shopify store and storefront.
- Added and managed clothing products, collections, pricing, and product information.
- Configured the dropshipping workflow using Qikink.
- Explored Shopify order management and basic e-commerce operations.
- Customized the store layout and user experience.
- Managed the store as a practical learning project and later discontinued it.

Technologies: Shopify, Qikink, E-commerce, Dropshipping

AI & Generative AI (Technical Learning & Research)

Explored Artificial Intelligence, Generative AI, Large Language Models (LLMs), and AI agents to understand their applications in modern software development and business automation.

Responsibilities:

- Studied the fundamentals of Generative AI, LLMs, prompt engineering, and AI agents.
- Researched AI frameworks, tools, and approaches for integrating AI capabilities into business applications.
- Researched AI agent architectures and their applications in CRM automation and business workflows.
- Explored AI coding agents such as Gemini and Claude Code for AI-assisted software development.
- Used AI coding agents to assist with code generation, debugging, refactoring, documentation, and technical problem-solving.
- Researched approaches for integrating AI features with web applications and REST APIs.
- Created technical documentation, research notes, feature specifications, and development-related documentation.
- Applied AI concepts and development practices while working on the Axivon AI-powered CRM platform.

Technologies: Generative AI, LLMs, AI Agents, Gemini, Claude Code, Prompt Engineering, AI Development Tools, REST APIs

Axivon — AI-Powered SaaS CRM Platform (Independent Software Project)

- Working as a Software Developer in a four-member team to develop a multi-tenant, AI-powered SaaS CRM platform for managing customer relationships and automating business workflows.
- Responsible for the application development and technical implementation of assigned modules using ReactJS, .NET Core, Entity Framework, and PostgreSQL.

Responsibilities:

- Developing and maintaining the SaaS CRM frontend using ReactJS.
- Developing RESTful APIs using .NET Core Web API and Entity Framework.
- Designing and implementing PostgreSQL database structures for a scalable multi-tenant SaaS architecture.
- Developing CRM modules including Leads, Companies, Contacts, Deals, Tasks, Activities, Calendar, and Dashboard.
- Implementing multi-tenancy, authentication, authorization, role-based access, and tenant-level data isolation.
- Developing AI-powered features to automate CRM activities and business workflows.
- Using Gemini and Claude Code as AI coding agents to assist with code generation, debugging, refactoring, documentation, and technical problem-solving.
- Reviewing, testing, and validating AI-assisted code before integrating it into the application.
- Researching and implementing AI agent capabilities for automated follow-ups, meeting intelligence, and business workflow automation.
- Conducting technical research on AI tools, APIs, frameworks, and SaaS architecture approaches.
- Preparing technical documentation, feature specifications, API documentation, workflow documentation, and development notes.
- Participating in requirements analysis, feature planning, system design, and technical decision-making.
- Testing APIs and application workflows and resolving bugs and implementation issues.
- Collaborating with the other three team members to integrate modules and deliver SaaS product features.

Technologies: ReactJS, .NET Core Web API, Entity Framework, PostgreSQL, JavaScript, REST APIs, Generative AI, LLMs, AI Agents, Gemini, Claude Code

EDUCATION

BACHELOR OF ENGINEERING (B.E.) IN COMPUTER ENGINEERING

Smt S R Patel Engineering Unjha | 2020 - 2023

DIPLOMA IN COMPUTER ENGINEERING

Government Polytechnic Waghai | 2017 - 2020

ADDITIONAL INFORMATION

- **Date of Birth:** 25 Nov 1996
- **Languages Known:** Gujarati, Hindi, English
- **Hobbies:** Travelling, Volleyball, Cricket
- **Marital Status:** Single
- **Nationality:** Indian
